

PARTY'S SAD TRIP
IS NOW AT AN ENDPRESIDENTIAL TRAIN ON THE
RETURN JOURNEY.

Passed Through Pittsburg at 8 O'clock This Morning, and Arrived at the National Capital at 5 O'clock This Afternoon—Remains of the Dead Statesman Rest at Oakwoods.

Pittsburg 31.—The presidential team passed through this city at 8 o'clock this morning and will arrive at Washington at 5 this afternoon.

Chicago, May 30.—With roll of drums and sound of bugles the body of Walter Q. Gresham was received back yesterday by his home city for sepulcher. All the honor a great people could pay was placed upon the bier of the dead secretary of state. The highest officers of the land stood about the flag-draped casket as it was lifted from the train which had borne it on its long journey from the capital, while the power and majesty of the nation, typified in its military forces, paid tribute by drooping colors. The city of the dead statesman's adoption was present at his grave by her officers, the state paid him tribute, the bench, the bar, the people.

The funeral train, consisting of five coaches, arrived at the station of the Illinois Central at 2 o'clock in the afternoon. In the funeral party, besides the family of the dead secretary, were President Cleveland, Secretary Carlisle, Secretary Lamont, Attorney General Olney, Postmaster General Wilson, Secretary Herbert, Secretary Morton, Secretary Smith and Acting Secretary Uhl.

When these had alighted the casket was borne from the train by eight sergeants of marines to the state hearse, to which were attached six coal-black horses, waiting below. Stretching far down was the escort of honor, consisting of the troops from Fort Sheridan, who received the body and the Washington party. Eight companies of the Fifteenth United States Infantry, under command of Colonel Humphrey, were drawn up in company front next to the station. Beyond were Troops B and K of the Seventh Cavalry and Capron's Light Battery of Artillery. As the body was removed from the train the command presented arms, the long roll of muffled drums was heard and then the salute was sounded by the trumpeters.

Behind the casket walked the honorary pallbearers, consisting of the most prominent citizens of Chicago.

When the casket had been placed within the hearse, the family of the dead premier were escorted to the carriages. There were Mrs. Gresham, broken by the blow of her loss; Otto Gresham, the secretary's only son; Mrs. Andrews, the daughter, and her husband. The president and his cabinet followed, and then intimate friends of the family, members of the Loyal Legion, judges of the federal and state courts, city, county and state officers, members of the bar and other civic bodies took their places in the order named, and all was ready for the march to Oakwoods cemetery.

The command was sounded on the bugles and the long cortege moved. It was a brilliant and somber array which moved between a solid mass of people on the avenues leading to the cemetery. The color was supplied by the military, with its draped flags and the dark blue uniforms, helmets and yellow plumes of the cavalry, the deep tunics with red trimmings, capped with crimson plumes, of the artillery, and the long blue line of infantry, with their accoutrements gleaming in the sun.

Then came the hearse, with its black trappings, and the carriages, all moving at solemn pace. Inside the cemetery gates the cavalry drew to one side, where the troopers stood at salute with sabers as the body and its escort passed, while the bugles were sounded by the trumpet corps. When the chapel near the entrance was reached by the hearse the cortege halted. The casket was borne into the chapel and, following the wishes of the family, simple services only were conducted by Rev. Dr. Simon J. McPherson, of the Second Presbyterian Church, which Secretary Gresham had in his lifetime attended. A prayer, reading of appropriate passages from the scriptures, the singing of a hymn by the choir of the Second Presbyterian church—that was all before the body was placed in a crypt in the chapel, there to rest until the family shall have decided upon a final resting place.

There was no booming of cannon in recognition of the exalted station held by the man who lay there dead and to which his post had entitled him—the family wish that as much display as possible might be dispensed with was observed. After the commitment service the cavalry buglers sounded taps.

Vice-President Stevenson, ex-Postmaster General Bissell and Gov. Matthews, of Indiana, met the funeral train upon its arrival and were assigned places in the carriages. Major-General Wesley Merritt, while not assuming command of the military, was in attendance in full uniform, accompanied by his staff. Lieut.-Gen. John M. Schofield, United States army, was accompanied by Lieut.-Col. Charles B. Schofield and Lieut.-Col. T. H. Bliss, of his personal staff. Other army officers present were: Col. Thomas C. Sullivan, Capt. Wells Willard, Capt. Paul Reade, Lieut. Joseph A. Gaston and Lieut. Henry Harvey. The Loyal Legion attended in a body.

The simple ceremony ended, President Cleveland and most of the cabinet returned to their train, where it was awaiting them, and immediately left for Washington. Secretaries Morton and Carlisle remained in Chicago, as did Mr. Landis, who was private secretary to Gen. Gresham. Assistant Postmaster General Jones will visit his family in Springfield before returning to Washington.

Representative Hitt Getting Better. Washington, May 31.—Representative Hitt is reported by his physician to have spent a comfortable day.

THE RAIN STORM GIVES RELIEF

The First Good Dampness in Kansas Since Last Fall.

Junction City, Kan., May 31.—The drought here was broken yesterday by the first general rain since last fall. Corn is not injured, but a few fields of oats are entirely knocked out and some wheat with good weather will make a crop.

RAIN ALL OVER IOWA.

Damage by Hot Winds to a Large Extent Undone.

Carson, Iowa, May 31.—Eight hours of steady, gentle rain fell yesterday, breaking the drought, which had become alarming. The hot winds had so burned the rye and timothy that fire would run on some fields.

Creston, Iowa, May 31.—Rain fell here last night and came at an opportune time, as hot winds, which had prevailed for several days, were damaging to crops. Corn needed rain badly and pastures were being burned up.

Clinton, Iowa, May 31.—Copious showers fell over this section at intervals all day yesterday, undoing to a great extent the damage done by the hot winds of the last few days.

Eldora, Iowa, May 31.—This section was visited by a heavy three hours' rain yesterday. The country looks much better and crops are improved.

Dubuque, Iowa, May 31.—Rain fell all over Northern Iowa yesterday. The temperature dropped to 80.

Cedar Rapids, Iowa, May 31.—Heavy rains prevailed six hours over this section of Iowa.

Situation in Illinois.

Champaign, Ill., May 31.—Wednesday and yesterday were genuine scorches in this section of Central Illinois. The fields are so thoroughly dried up that they are being fired by sparks from passing engines as in the fall. There is no possibility of a hay crop, and farmers generally concede that oats are past redemption.

Utica, Ill., May 31.—A crop-saving rain fell here yesterday. It has made the prospect for a wheat crop 50 per cent better.

Minonk, Ill., May 31.—Hot winds have destroyed many acres of corn, which farmers are replanting.

Nebraska Outlook Favorable.

Lincoln, Neb., May 31.—Nebraska's hopes have been revived. There were general rains throughout the state Wednesday night and yesterday. In many places they were quite light but very beneficial, and in others very heavy. Grand Island and vicinity was most fortunate with a fall of more than two inches. In this vicinity the fall was light, but all unfavorable crop conditions have disappeared. Data received from many sources and places indicate that the corn is in a flourishing condition, while wheat and oats may yet make a light crop.

Bad Outlook in Indiana.

Wabash, Ind., May 31.—Yesterday was the hottest day of the year, the thermometer marking from 95 to 101 in the shade. Vegetation is suffering and the crop outlook in this part of the Wabash valley, already very bad, is constantly growing worse. Wheat, oats and corn can not make over half a crop, and if the dry weather continues much longer will be a total failure.

WAR IS RENEWED.

Japan's Cannon Turned Against the Island of Formosa.

Hong Kong, May 31.—Private advice received here are to the effect that the Japanese are bombarding Kung Tung, a town in the extreme north of Formosa.

Tokio, May 15.—Per Steamship Victoria, via Victoria, B. C., May 31.—American and European residents of Formosa are in great alarm owing to the threatening attitude of the Chinese soldiery on the island. The Chinese authorities have lost all control, and until the Japanese take possession it is feared that foreigners may be in serious danger. The commanders of the naval forces in the vicinity have been earnestly called upon to provide mariners for the protection of open ports.

Kaiser Reviews His Troops.

Berlin, May 31.—The annual review of the garrison of Berlin took place yesterday on the Tempelhof parade ground. The emperor, empress, the young princes, and other members of the imperial family, in addition to a number of royals, were present. The emperor led the Second Regiment of the Guards past the empress, and after delivering his usual criticism of the army his majesty rode at the head of the color company to the castle. He was heartily cheered.

Veterans Prostrated by Heat.

Pittsburg, Pa., May 31.—With two exceptions yesterday was the hottest day here in over twenty years. The highest temperature was 93 degrees at 3:15 o'clock in the afternoon. Many prostrations from the heat occurred among the veterans. Scores of the old soldiers dropped out of the line of march to and from the cemeteries. Steve Felman, employed in the Carnegie mills at Homestead, was overcome by the heat and was removed unconscious to the West Penn Hospital. He died in two hours.

Killed in a Runaway.

Duluth, Minn., May 31.—William J. Duncan, a prominent business man, was killed yesterday while driving a new horse, which became frightened and ran away. He was thrown from his buggy, striking against an iron trolley pole. His head and side were crushed. He died in a few minutes.

MAN GORED TO DEATH
BY A VICIOUS BULLKARL KRUEGER'S UNTIMELY
FATE AT WINNECONNE.

Attacked by the Brute While Alone in the Field, He Had No Chance For Escape—Milwaukee Man Murders His Wife on a Crowded Street—State Specials.

Winneconne, Wis., May 31.—[Special]—Karl Krueger, a prominent German farmer met a fearful death near here yesterday. Krueger went into the pasture on his farm alone. He had hardly gotten inside the enclosure when a vicious bull shook his head angrily and bellowing with rage made a run for Krueger. The farmer made a good fight for his life and vainly tried to beat the brute off but he was unsuccessful and was gored and trampled until help came. When at length he was rescued he was breathing but feebly and died a few hours later.

Viroqua, Wis., May 31.—The monument erected to the memory of the late Jeremiah M. Rusk, President Harrison's secretary of agriculture, was dedicated yesterday with imposing ceremonies conducted under the auspices of the Grand Army. The dedicatory address was delivered by Col. John C. Spooner, Gov. Upham and all the state officers and many United States senators and congressmen, together with delegations representing every part of the Grand Army in Wisconsin, were present.

The monument itself is a fitting memorial to the honest and rugged hero who lies beneath it. It consists of a plain pedestal, surmounted by a shaft thirty-three feet in height. A tablet at the base bears a brief epitome of the life of the late soldier-statesman, while a bronze shield attached to the lower part of the shaft is inscribed with the sentence, "Non sibi, sed patriae" ("Not for himself, but for his country"). The crowd attracted by the occasion is quite unprecedented in this secluded little hamlet, and is a striking evidence of the love and esteem in which Mr. Rusk was held by all who knew him.

Shoots His Wife on a Public Street.

Milwaukee, Wis., May 31.—Shortly after 11 o'clock last night Dave Patton, a second street saloonkeeper, chased his wife down Grand avenue from Fifth street. The thoroughfare was crowded at the time. The woman was getting away from him when he pulled a revolver and began shooting after her. The pedestrians ran in every direction to escape the shots, one of which struck the fleeing woman and brought her to the ground. She is not thought to be dangerously wounded. Patton was arrested.

EQUAL BEFORE THE LAW.

Florida Judge Decides Rich and Poor Shall Be Treated Alike.

Jacksonville, Fla., May 31.—A cable-Cromwell Gibbons yesterday ordered the release of all prisoners serving sentences in the county jail for carrying concealed weapons or shooting at another. This is because Gov. Mitchell had set aside the sentence imposed on Banker Marvin for a like offense. Judge Gibbons says the governor interfered for the banker he intended to interfere for the prisoners without money. About twenty prisoners will be released. Gibbons also states he will make penalties light hereafter.

Pittsburg, Pa., May 31.—This city is making a strong bid for the republican national convention of 1896. The Times has started a guarantee fund of \$100,000 to defray expenses. All the newspapers and business men are making every effort possible for the convention, and much encouragement has been received from national committeemen in favor of Pittsburg.

New York, May 31.—The Morning Advertiser says: "When Logan Carlisle, son and private secretary of the secretary of the treasury, stepped on board the steamship Paris, he carried a grip-sack in which were carefully laid away \$50,000,000 worth of United States bonds of the last issue. These bonds will be placed in the hands of European bankers and financiers."

A. O. Murray, the master of Ellbank.

Fatal Cloudburst in Texas.

San Angelo, Texas, May 31.—A disastrous cloudburst occurred yesterday along the Johnson and Devil rivers. Five bodies have been recovered from "draws" which were flooded by the storm, and it is feared that a number of settlers in the valleys of the two rivers have perished. Searchers have been unable to reach several large ranches in that section. One ranch, with 1,700 sheep, lost 1,300.

Fair, stored since August, 1893, at Porta Costa warehouse, has been sold to a syndicate of dealers. It is estimated the loss on Fair's attempt to make a corner in wheat will not be less than \$2,000,000.

Made a Fatal Mistake.

Kansas City, Mo., May 31.—A gas pipe two feet long, filled with dynamite, and with fuse attached, was found yesterday in the basement of the Grand Missouri hotel.

BROKERS KEEP HOLIDAY.

Expectation of Rain Causes Weak Feeling on the Curb at Chicago.

Chicago, May 31.—The Board of Trade here and all the other commercial exchanges of the country were closed yesterday. Outside the board of trade building groups of the idle speculators discussed the price of wheat. They inclined to the belief that it would open lower than it closed because of rain having fallen on the already dead wheat of Kansas and the cornfields of Iowa. In Iowa very little wheat is raised. The expectation among the speculators is that rain will reach Missouri, Indiana and Illinois and that a wet time is in store for Chicago. The winter wheat crop in the last-named states is more than half killed already and the remainder is in very bad shape and too near maturity to be benefited by rain. In fact, heavy rain now would cause additional damage. The nominal value of July wheat was 80c per bu at 12 o'clock. At St. Louis on the curb it was worth 81c, or 1/4c over the price it closed at. Calls on July wheat were 74c. Corn was called weak and nominally worth about 53c for July.

Bad Freight Wreck in Ohio.

Steubenville, Ohio, May 31.—A bad wreck occurred on the Panhandle railroad at Skelley's station, west of this city, yesterday. The wreck train from this city took out iron rails and ties to replace those burned and injured by the fire.

gan avenue en route to the depot battery D, I. N. G., Capt. Alfred Russell commanding, fired a national salute of 46 guns. On the arrival of the train at 60th street the distinguished party alighted and, again taking carriages, were joined by detachments from the national guard, grand army posts and confederate veterans and the combined bodies, preceded by a military band, all under escort of the Black Hussars, Capt. A most interesting program of music and addresses was given, followed by the ceremony of consecrating the guns, as follows: At first cannon—Col. Stewart: "This gun, having fired its last shot on field of battle, will now be sounded and then silenced forever. Spike the gun!" Whereupon the spiking party spiked the cannon, Lieut. Col. Overcome by the Heat While Reviewing G. A. R. Parade.

R., which started from the Plaza at Fifth avenue and Fifty-ninth street.

The principal observance of the day was at the tomb of Grant, Riverside Park, overlooking the Hudson river. The services there were under the auspices of U. S. Grant Post, G. A. R., and included a memorial address by Gov. McKinley, of Ohio. Contributing to make this affair noteworthy the United States cruiser Cincinnati was anchored in the river, by order of the secretary of the navy and fired a salute.

Tribute to Logan's Memory.

Washington, May 31.—One of the incidents of Decoration Day exercises here was the informal tribute of Illinois people to the memory of Gen. John A. Logan. Mrs. Logan drove to the grave about 11 o'clock and found seventy-five or one hundred veterans and soldiers' widows and families in waiting. The decoration consisted of the usual tribute from the famous "103" of the Illinois legislature and floral pieces from Willson Post, G. A. R., of this city, the Logan branch of Sons of Veterans and the Chevalier Bayard Commandery, Knights Templars of Chicago. The token from the "103" this year was in the form of a coat-of-arms in immortelles. This makes the seventh from the same source.

"Rock of Chickamauga" Dedicated.

DEATH IN THE RAPIDS.

Twenty-Three Lumbermen Drowned in the Spanish River, Ontario.

Ottawa, Ont., May 31.—Details have reached this city of the terrible accident which occurred on the Spanish river, by which thirty-three men lost their lives. The victims were lumbermen. They had encamped for the night on a crib of square timber moored to shore near the head of the rapids, which at this point are very precipitous and rocky. All had gone to sleep, without leaving a watchman to guard the crib. During the night the crib broke from its moorings and carried its cargo of sleeping men, all unmindful of their fate, into the surging water below. The crib was broken to pieces on the rocks and not a man escaped to tell the tale. The Spanish river flows into the north channel of Lake Huron, north of Manitoulin Island. Near its mouth is a small hamlet of perhaps one hundred inhabitants, situated on the Sioux branch of the Canadian Pacific railway. The entire country is a lumbering district.

Marsh were all destroyed before the flames could be subdued. The loss, it is estimated, will be \$20,000. The amount of insurance cannot be stated definitely. The fire had a fatal result in the burning to death of Samuel Shank. Orton Walker was badly injured by the flames

TRIBUTE IS PAID TO SOLDIER DEAD

EXERCISES HELD AT CONCORDIA HALL LAST NIGHT.

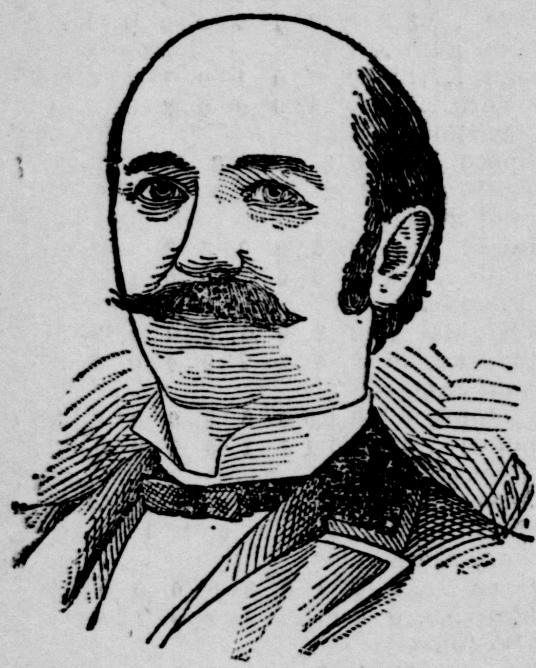

Citizens and Old Soldiers Listened to a Brilliant and Patriotic Address by Congressman Cooper, Sang the Old War Songs Over Again, and Recalled Sad Memories.

The Memorial day exercises which were of necessity postponed yesterday afternoon, were held last evening at Concordia hall, and a large audience were present. Dr. J. B. Whiting was chairman, and announced as the first number, music by the Y. M. C. A. orchestra. F. F. Lewis is the leader of the organization, which includes twelve pieces, and their numbers were very well rendered. Dr. Whiting then introduced Rev. Dr. Halsey as "Chaplain" Halsey, and explained that the eloquent pastor of Court street church had earned that title on the field of battle.

"He prayed for us during the perils of camp and bivouac," Dr. Whiting said, "and he will pray for us again."

Mrs. O. H. Brand was then introduced, and recited "Truth's Memorial Day" in her usual finished manner, which won for her prolonged applause.

"I see by the program" said Dr. Whiting "that the president of the

CONGRESSMAN H. A. COOPER R.

day is down for some remarks, and I thank the committee for the honor."

Dr. Whiting's remarks were brief, after which he introduced Congressman Henry Allen Cooper, who delivered the address of the evening. After referring briefly to the causes of the change in program, Mr. Cooper spoke in part as follows:

"I am glad to participate with you in the services of this day—a day which every friend of freedom, every lover of his country, every one worthy the name of American citizen, should delight to honor—a day consecrated by memories among the dearest and holiest known to earth—a day set apart and devoted to the grateful remembrance of a nation's heroic dead. Patriotism, love and gratitude on this day join in a solemn pilgrimage to the holiest of earthly shrines—the patriot's grave."

The debt of gratitude though, too often to the selfish soul, a burden to be disowned or unpaid, is to the noble soul the most sacred of all obligations and the one which it most delights to honor. I know that in all this assemblage—I wish I could say throughout all the length and breadth of the republic—there is no one so ignoble, so lost to all the generous instincts of humanity, as to fail to recognize the immense and immeasurable debt we all owe to the silent sleepers upon whose graves we today lay our grateful offerings of flowers. Flowers have been called the angels' alphabet—and in the beautiful letters of that alphabet, in thousands of graveyards, on hundreds of thousands of graves where sleep in dreamless sleep the patriot dead, may this day be read the words—"A People's love—A Nation's gratitude"—a theme not unworthy of the tongue which first voiced the story of the world's redemption.

May it ever be our delight, as it is our duty, to keep green the remembrance of their patriotic devotion and heroic deeds. Let it be the office of Decoration day to keep open at this page the history of the past. Let every recurring anniversary recall its memories and renew its vows. May its lessons from the heroic past inspire them to prepare for a heroic future. Love of country, love of liberty and of right, and the courageous self devotion that unflinchingly faces death itself in their defense, these are its lessons. Upon them depend the perpetuity of this republic.

Then came an interesting outline of the history of the war, with the

horrors of Libby and Andersonville, which scenes, he said, no word of mouth could describe. Thirty-four years ago on May 13 the flag went down before a storm of shot and shell at Sumpter; but the sunlight of the next morning saw its bright folds gleaming through every valley and flashing from hill-top throughout the loyal north. When President Lincoln called for volunteers, from the mountain side, the forest and the prairie came the rallying hosts, eager to serve their native land, while the air was charged with the patriotic music of the fife and drum, and the flag was unfurled from spire, staff and housetop. He said that most of his audience recalled those wild days, and told how he, as a school boy, was inspired by the sight of the "big boys" going to the war. Soon, however, he said the scene was a different one. The voice of mourning was heard bearing a sad accompaniment to the fife's shrill melody and the garb of woe was seen more and more amid the glitter of uniforms. In less than five short weeks from the day those boys marched so proudly away, came the news that one of them had been killed at Bull Run.

He then sketched in a feeling manner, the way the news was received, and how the pall of mourning smothered the cheers of patriotism; and grim visaged war, unadorned by glitter, came home to those left behind with all its crushing force. The list of the dead swelled day by day, he said; and day by day those who went forth full of health and strength came back sick and maimed, often only to die, yet we rejoiced that they came, for we knew of the many who would never come again.

He then described the scene at the depot, when a company left for the front. There were hand shakings, cheering words of encouragement and hope, and weeping good-byes, but admiring all this, he continued, one man in particular attracted his attention. It was he who shook the many outstretched hands and returned the many good-byes with a pleasant smile and a cheery voice, till the whistle of a train was heard, when a woman, leading a little child, made her way through the throng and reached out her hand to him. She was trying to look brave, but as he drew her to him and her lips met his farewell kiss, the gushing tears that told her heart's sorrow would not be restrained. That was the last farewell for the man did not return. Such parting scenes were almost of daily occurrence throughout the country. Every city, village, and scattered settlement witnessed such sundering of the closest ties of kindred and love. Four thousand men went from this country, he said, and in eleven different regiments their footsteps impressed upon the soil of every rebel state the fact that Rock country was true to the cause of freedom.

None who had witnessed these scenes would ever forget them, he said, so he would dwell upon them no further. Historians might write but they could never feel the thrill that shot through the nation when the call came.

On this day of gratitude, he said, the living heroes should not be, and were not forgotten by the nation they had served. He spoke eloquently of how they had shared the privations of those who did not come back and said that in their presence he hardly dared to speak of the great events in which they took part. No tongue, and no imagination could portray the past, and the loftiest panegyric could add no luster to the heroes' crowns. The nation, he continued, rejoiced that they had been spared for they had earned the eulogy "He deserves well of his country." The debt could never be repaid, the old soldier could never be compensated, and he attempted, but feebly, to voice the gratitude that existed in every loyal heart.

"But I am detaining you too long" he said in closing. "We hasten to the pleasant task of decorating with flowers the graves of the dead, a labor in which gratitude and affection join hand in hand. And as we scatter our beautiful gifts on the green turf beneath which rests their honored dust, may we feel that the spirit which once animated that dust can never die."

"The Milwaukee Light Guard (Quickstep)" by the Y. M. C. A. orchestra followed Mr. Cooper's splendid address and was followed by "Departed Days," both numbers being fully enjoyed by the audience.

Dr. Whiting then arose and said that the thought had occurred to him while listening to the speaker, how that each year there was more work for the comrades to do and less of them to do it. Only fifty soldiers slept in Oak Hill cemetery when it was dedicated while now there were in the neighborhood of two hundred. He paid a feeling tribute to the Women's Relief Corps and said that all should honor that noble band of women.

The audience then joined with the orchestra in "Marching Through Georgia" and President Whiting called on E. O. Kimberley "The Soldier Singer." Mr. Kimberley did not have his music with him but got it and later sang "We Are The Boys," in a very feeling manner.

Dr. Whiting then called on Hon. James Sutherland, who told how he had drilled to be ready to go to the war but the inspector refused him. He said, however, that his two sons had fought for their country, and told how Alderman Orion Sutherland had slept under the railroad culvert near the parental home with no shelter but a blanket, "to be ready to live the way the soldiers did;" how he had run away to join the army; served nine months in Alabama and was there when Jeff Davis was captured and the war closed. Mr. Sutherland also stated that his great grandfather

was in the revolutionary war and his grandfather in the war of 1812.

Then someone in the audience called for Chaplain Halsey, who begged to be excused, saying that he had left the meeting at his own church to be with them; that he had been obliged to decline two invitations to address Grand Army posts, but if they would let him off for two or three weeks he would promise them that they might call on him three nights a week and he would be a minute man and never flinch. He said he had enjoyed Hon. Cooper's address and was very glad that he had a representative who would represent and not misrepresent us.

Mr. Kimberley then led the singing of the "Battle Cry of Freedom" at the suggestion of Dr. Whiting and the audience joined in with a will, after which the president complimented the orchestra on their splendid work and the gathering dispersed, although many of them remained to greet Congressman Cooper whose address, learned, brilliant and patriotic in its construction and faultless in its delivery, made a deep impression on all who heard it.

THE TOWN TALK OF A DAY.

The unbroken regularity of the visits of Dr. Brewer, the celebrated physician, is at once the best evidence of his professional standing, and of his success in the treatment of disease. Those out of health we believe, can have implicit confidence in Dr. Brewer, and feel certain in consulting with him, that he is thoroughly educated, with years of experience in the treatment of chronic diseases exclusively. He will be for consultation on his next visit at the Park hotel on Monday, June 3.

JOHN D'ORMOND is the youngest of our legitimate actors to play the classic repertoire. But no actor on the stage is so thoroughly equipped by nature and art to interpret the great authors, with a powerful voice, a commanding presence, and the undefinable something named magnetism. He brings a potent personality to his aid in character renditions, which stamps him as a student who has mastered the most delicate intricacies of his art—Memphis Appeal. Ingomar at the Grand Monday night.

THEY may tear up the street railway, but a walking chance will still be left, but an opportunity to buy a Strong & Carroll hand-welt Cordovan for three dollars, is only the chance of a life time—Saturday, June 1. We want to make it a great day for bargain hunters, and will sell you any shoe in the store for \$3 on that day. Brown Bros. & Lincoln.

You had a chance last Saturday to buy any shoe in the house for \$3.00. We are going to give you another opportunity Saturday June 1. Remember you can buy patent leather shoes, cordovans or kangaroos. No reserve. Every shoe in our stock goes. Brown Bros. & Lincoln.

BETTER THAN A GOLD MINE.

Last month I cleared, after paying all expenses, \$235.38; the month before \$186.86 and have at the same time attended to my regular business. I believe anyone, anywhere, can do as well, as I have not a particularly good location and not much experience. When you have an article that every family wants, it is very easy selling it. It seems strange that a good, cheap dish washer was never before placed on the market. With the Perfection, which sells for \$5 you can wash and dry the dishes for a family in two minutes, without putting the hands in water. As soon as people see the washer work, they want one, and that is why so much money can be made so quickly. For full particulars address The Perfection Mfg. Co. Station O, Englewood, Ill. I feel convinced that any lady or gentleman, in any location can make \$5 to \$10 a day, as every family will very soon have a dish washer. Try it and publish your experience for the benefit of others.

\$800 IN GOLD DROWNS A MAN

At the burning of a steamboat on the Hudson river forty years ago, many of the passengers were drowned. Among the bodies brought up from the bottom of the river by grappling was that of a man known to have been an excellent swimmer. Around his waist was a belt containing nearly \$800 in gold. That told the story.

"In old chronic and cases of indigestion (dyspepsia or gastritis)—it is all the same! the sufferer develops a great variety of symptoms and often dies—oiled by the products of his own torpid and inflamed stomach. His food instead of being digested, and so furnishing strength and physical substance, ferments and putrefies within him. The chief process of life is arrested at a vital point. The more he eats the worse off he is. And yet unless he can be fed he must also perish. People so soiled daily, by thousands, but we doctors seldom have the moral courage to give the cause its true name lest we should be laughed at for our inability to cure so 'simple' a thing as indigestion. Simple? Why, it is the capstone of all complaints and the mother of most of them."—So writes a famous English physician.

Some of the symptoms alluded to are these: Loss of appetite; distress after eating; heartburn and palpitation; giddiness; foul taste in the mouth; the rising of nauseous acids and gases into the throat; furred tongue; spots before the eyes; unaccountable weariness and fatigue; sluggish circulation; weakness and nervous prostration; constipation or diarrhoea; discolored skin, etc.

The sufferer's friends often advise him to cheer up; throw off his lethargy and eat freely. Bad advice. He knows better. "No," he answers "I cannot; my food does me no good." He is right. Food now is gold in the spent swimmer's belt.

Take light nourishment, followed immediately by a dose of the Shaker Digestive Cordial—a new and radical remedy discovered and prepared by the Shakers of M. Lebanon, N. Y.—the essence of medicinal herbs and plants cultivated by them alone. Then continue with it. Relief at once and soon cures. Pleasant to the palate and adapted to all constitutions. Trial bottle sent, which proves its merit—at ten for sale by nearly all druggists.

TAKING CHANCES.
WOMEN ARE CARELESS.

They Over-Estimate Their Physical Strength. Advice to Young Women.

(SPECIAL TO OUR LADY READERS.)

Women are very apt to over-estimate their strength and overtax it.

When they are feeling particularly well, they sometimes take chances which in the long run cause them much pain and trouble. This is due largely to their not fully realizing how delicate their sensitive organism is.

The girl who has just become a woman can hardly be expected to act wisely, everything is so new to her. She, however, should be told; and every woman should realize that to be well her "monthly periods" should be regular. Wet feet, or a cold from exposure, may suppress or render irregular and fearfully painful the menses, and perhaps sow the seed for future ill health.

Lydia E. Pinkham's Vegetable Compound will ever be the unfailing remedy in such cases as well as all the peculiar ailments of women. Millions of women live to prove this. Mrs. M. L. Verrill tells plainly what it has done for her:

"I will write you a few lines to tell you what my troubles were before taking Lydia E. Pinkham's Vegetable Compound. It was the same old story, my back and lower part of my abdomen and painful menstruation. Of course it was female weakness. The doctors (I have tried five different ones) called it chronic inflammation of the womb.

"I had leucorrhoea for over eight years, ulcers on the neck of the womb, terrible headaches and backaches. Your medicine completely cured me."—MRS. M. L. VERRILL, 223 Newell Ave., Pawtucket, R.I.

SUPREME COURT DECISION

The supreme court has recently rendered two very important decisions, and as a result, this highest tribunal, is regarded with a significance, never so fully appreciated, as now. The first, the income tax, is a lesson to congress that will not soon be forgotten. It is possible, as it was at the last session, to group a class of fanatics, populists and impractical men in strength sufficient to enact laws as pernicious as was the income tax. This being the case, the nation will breathe freer, knowing that back of congress is the supreme bench, possessing the ability as well as the power to act wisely for the country.

The decision of the court in the Debs case is equally important, and affirms the establishment of a principle that is vital to the welfare of the nation. If such men as Debs and Atgeld are permitted to go unpunished, or unrebuked, it means peril and lawlessness throughout the commonwealth, and a reign of anarchy would speedily follow. A man who defies the law and criticises the president for enforcing it by military power, when necessary, deserves more than six months in jail. He deserves banishment from a country where loyalty seldom requires cultivation. The president of the American Railway Union and the governor of the great state of Illinois belong to the class of men that this country has but little use for, and the decision of the supreme court is a well merited rebuke to lawlessness, too often found in positions of trust and honor. It is well for the country that the men who framed the constitution and shaped the affairs of government in the early days of its history, possessed wisdom and foresight in a rare degree, and that when anarchy and treason of the Debs stripe runs rampant, or when legislation becomes fanatical and imbecile, as was the case in the last congress, that a higher authority vested in a small but clean cut and intelligent body like the supreme court, may come to the front, and save the nation from its own weakness and folly.

DECORATION day, when observed as it should be, is a great factor in broadening our civilization. It stimulates us to action by filling us with a patriotic devotion to our country. Education makes us stronger to perform our duty. "Knowledge is Power." Information on almost the whole circle of human knowledge is tersely presented in the cyclopedia which is now being offered on the best of terms at King & Skelly's.

JANESVILLE, Wis., May 27, 1895.—Judge John R. Bennett states: Though I have owned the New American Cyclopedia and the Encyclopedia Britannica ninth edition for several years, I have recently purchased Johnson's Universal Cyclopedia because it is the latest, embracing many more topics than any other, and all are treated in a clear, correct and compact form. The legal definitions are given with as much accuracy as in any law dictionary. The pronunciation of many difficult words adds much value to the work. I know no work more necessary, useful or valuable for a gentleman to add to his library.

Superintendent of City Schools D. D. Mayne states:

"I have carefully examined the cyclopedia now issuing from the press of Appleton & Co. I know of no better work in existence. Personally I prefer it to all others." Can be seen at King & Skelly's.

JANESVILLE, Wis., May 28, 1895. Victor E. Southworth, pastor of All Souls, the people's church:

"I take pleasure in giving 'The Cyclopedia' just coming from the press of the Appletons my hearty endorsement. I have used the 'American' and the 'International,' but this is by far the most satisfactory. It is decidedly up to date." You need not trade. Come in and see us.

MRS. CLARA SHUMAN GETS HER DIVORCE

INDIAN FORD WOMAN FREED BY LAW.

Her Husband Having Deserted Her Soon After Her Wedding, She Applied to the Court For a Bill and the Right to Assume Her Maiden Name, Getting Both.

Mrs. Clara Shuman of Indian Ford, came to this city this morning and after remaining a few hours, returned to that hamlet as Miss Clara Johnson, that being her maiden name, an order issued by Judge Bennett, in a divorce proceeding, authorizing her to do this. Miss Johnson and Henry Shuman were married about four years ago, and resided at Indian Ford, or at least claimed that place as their home, but it was a home only in name to them, as Henry, it was claimed and proved, deserted his wife and failed to provide her even with the necessities of life, saying nothing about the luxuries. Judge Bennett was convinced of this after listening to the testimony of Mrs. Shuman, the plaintiff, and also the testimony of her attorney, Miss Angie J. King, and accordingly granted the divorce, and also an order permitting the plaintiff to assume her maiden name. The defendant did not appear.

The funeral of Mrs. Julia M. Mrs. Concannon was one of the early settlers of Rock county, and was fifty-two years of age. An attack of the grip contracted last fall, finally terminated in consumption, which was the cause of her demise. She leaves besides a husband six children, one son and five daughters: Mrs. R. J. Tobia, of Albany, New York; Misses Nellie, Julia, Frances and Rose, and D. J. Concannon, of this city.

Joseph Wallace, the two-year old son of Mr. and Mrs. Justin Wallace of 64 Prospect avenue, died at 2:30 o'clock this morning of membranous croup. WANTS A SON SENT BACK TO MENDOTA

HARRY DAVERKOSEN, JR. AGAIN SHOWS SIGNS OF MANIA.

He Was Examined and Committed to the Asylum Once Under an Assumed Name, and His Father Secured His Release on Parole—Stone Throwing His Hobby at Present.

When Harry Daverkosen, Jr. grabbed a club and chased his father about the house yesterday, the parent changed his mind about the youth's mental balance and decided that the commission of physicians who sent the lad to Mendota some days ago knew something about insanity after all, so he applied to the police and Daverkosen will probably go back to Mendota.

Harry has a mania for throwing stones, and is very careless while indulging in that pastime. Last evening, while in this hypnotic state of mind he wrought considerable devastation, breaking windows and injuring furnishings in neighboring houses, and in one instance a lady who chanced to pass a window was struck on the forehead by a rock which the young man hurled through the window.

Young Daverkosen is crazy. A few weeks ago he was found wandering around, and was arrested, no one appearing to identify him. He gave his name as Harry Lansing at that time, and under that name he was examined by a commission and pronounced insane and sent to the Mendota hospital for treatment. At the same time he was missed from his home, and his father, finally traced him to the insane hospital. Mr. Daverkosen insisted his son was not insane, and finally succeeded in obtaining his release under parole. Now the father is convinced that the son is insane, and desires him sent back to the hospital for treatment. He has appealed to the police to assist him and prevent the lad from committing any further damage by throwing stones. The boy will probably be returned to Mendota, as he is only out on parole.

Young Daverkosen has gone down to the jail several times of late and applied for admittance to that institution, and this morning he was accommodated. Soon after the stone throwing, the man whose house was stormed started for the jail to complain. Daverkosen saw him start out and followed along behind, both arriving at the bastille at about the same time. The complainant stated his case to Turnkey North and as Daverkosen talked wildly and said that burglars threw the stones the turnkey locked him up.

BIRTHDAY CLUB EASY ON FISH

No Catch in Sight and No Two Stories Are Alike.

Members of the Birthday club, who went to Lake Koshkonong the forepart of the week, on a fishing excursion returned last evening via the Chicago & Northwestern route, each member paying his own fare. The party reached home about 10 o'clock, pretty well fatigued, but the fatigue was not caused by being weighted down with heavy strings of fish, for none of the party have yet shown any evidence that any were caught. While all admit having experienced a very pleasant time, no two tell the same story, except Messrs. Baker and Marzluff, who insist that the yarn about their getting into the lake by being washed off the deck of the boat by a Koshkonong tidal wave is wholly a fabrication. Nevertheless the whole party returned much refreshed, and enjoyed their two days' outing. The party consisted of Mayor F. S. Barnes, Ex-Mayor O. D. Rowe, Supervisor C. C. McLean, Ex-Alderman J. P. Baker, Ex-School Commissioner P. J. Moutat, Ex-School Commissioner Thor Judd, City Weigher F. D. Murdock, American Express Agent C. P. McLean and citizens F. M. Marzluff and W. W. Porter.

ALL FIRE WORKS ARE CHEAPER

Local Dealers Are Buying at One-Third Less Than Former Prices.

The small boy's allowance on the Fourth of July will go farther this year, on account of the prevailing low prices for pyrotechnics. A west side dealer who has just received a large supply of goods, says that the prices on all goods are exactly one-third lower than last year and owing to this state of affairs a larger supply of fire crackers can be obtained by the small boy. The trade in this part of the country is mostly supplied by Chicago and Milwaukee houses who place their orders mostly in Canton, China, in the early part of the winter. The principal reason given for this drop in prices is the strong competition in the wholesale line and the cheapness of the Chinese labor.

MARKET DAYS BOOM BUSINESS.

Other Towns Make The Scheme Successful If Janesville Didn't.

Although "market day" in Janesville didn't "pan out" other cities are working the scheme and the merchants claim that it benefits their business in a great many ways. Farmers came to town once a month, sell their goods and invest heavily in merchandise, when otherwise they would trade in smaller places. The cities of Watertown, Jefferson, Lake Mills, and Ft. Atkinson have tried it, and seem to keep it up, each city taking one Tuesday in each month, during the summer. A local butcher, who has just returned from attending a market day sale at Fort Atkinson, says that the streets were filled with buyers and sellers, and one farmer alone sold a carload of sheep.

ALDERMAN BURNHAM TO MOVE.

Trades His Tenement House For the Home of A. J. Bailey.

Alderman S. C. Burnham and family contemplate changing their residence from the corner of North Bluff street and Fourth avenue to the corner of Sarah and Hyatt streets. This was made possible today when the Second ward alderman traded homes with Arthur E. Bailey, Mr. Bailey coming into possession of the tenement house owned by Alderman Burnham at No. 4 Fourth avenue. It is understood that Mr. Bailey will occupy this as his future home, while the Second ward alderman will soon move up on the hill.

NEW FOREIGN POSTAGE RATES.

Schedule Has Been Given Out And Is Now In Force.

The new rate for foreign postage and registry have just gone into effect. The rate of letters to all parts of the world, excepting Canada and Mexico, will be five cents per half ounce. The rate to Canada and Mexico will remain the same as the domestic rates. Postal cards to all parts of the world will be two cents. The fee for registering a letter will be eight cents instead of ten cents. Printing matter will be charged one cent per pound.

GAS BAG MEN WANT TO GO UP HERE

Several Aeronauts Want to Give an Exhibition on the Fourth.

Landlord Sweeney of the Grand Hotel, thinks it is about time some move was being made towards a Fourth of July celebration. He has already received a number of letters from prominent aeronauts, who are anxious to come here on that day and make ascensions. Probably the balloon committee of two or three years ago can be gotten together and some plan arranged for an entertainment on the Fourth.

THE CHINAMEN LIVE HIGH

Local Celestials Buy the Best There is to Be Had.

A local butcher made the remark this morning that if people think that Chinamen buy cheap meat they are much mistaken, for nothing in the house is too good for John. Groceries men say that it is the same way in their business, that the best of everything is purchased. They buy a great deal of rice but fruit and berries are also sought for. Above everything else they are bound to have their tables well supplied.

COMPLIMENT FOR DR. J. W. ST. JOHN

Milwaukee Journal Speaks of His Removal to Salt Lake City.

The Milwaukee Journal in their "Badgers and Their Ways" column has the following:

"Dr. J. W. St. John of Janesville, appears to have struck a rich lead in the Keeley institute line. He started in first in the management of the institute at Excelsior Springs, Mo. After a successful administration of affairs there he returned to Janesville, but he was too valuable a man to lose. Three different times he was summoned to Dwight, and each time received a flattering offer to take charge of a Keeley institute, each offer being made considerably better than the preceding one, but none glittering enough to gather him in. Finally an offer was made to him to go to Salt Lake City at a magnificent salary and establish and manage an institute there, and he accepted. He will have full control of the institute, and in fact have things all his own way. It is a great compliment to a worthy man, and Dr. St. John has such a love for the Badger state that he will be a standing advertisement for it wherever he goes."

CUT PRICE 'PHONES IN GREAT DEMAND

REDUCTION INCREASES THE BUSINESS LARGELY.

State Agent Stolsky Is Now Working the Town, and There Are Two Hundred Instruments in Use—Work of Rebuilding the Line For Distance Service Will Soon Begin

The Wisconsin Telephone Company seem to have touched a responsive chord by reducing the price of 'phones and the business is rapidly increasing. Among the new subscribers recently added are George A. Shurtleff, ice cream factory; Crumney & Brooks, hardware store; Samuel Henderson, meat market; J. Crall, livery; Dr. G. F. Bedford, veterinary; Janesville Steam Laundry; J. H. McDonald & Co., commission firm; C. D. Evans, residence; J. M. Nelson, residence; Dr. C. A. Miner, office; I. C. Brownell, residence; Nolan Brothers grocery; Riverside Steam Laundry; Joseph Field, training barn; G. A. Proctor, leaf warehouse; George R. Davis, residence; Rich & Davis, druggists and Dr. E. E. Loomis' office. This is an unusually large number of new subscribers for the length of time in which they were secured, and the list now numbers two hundred. The city of Madison now uses two hundred and thirty-five 'phones, and Manager Willits thinks that this city ought to easily reach that number in a short time.

The principal reason for this increase in business is the drop in the price. The former price in the business district was \$4.00 where \$3.00 is now charged, but where two houses are on the same line the price is \$2.50 while \$2 is the price where three instruments are on the same line. A new section of switch board has been added, but as soon as the long distance 'phone is put in place a new metallic switch will be added the same as is now used at Chicago and Milwaukee. State Agent Stolsky is now here soliciting business and he is meeting with excellent success.

"Janesville is a good telephone town" he said, "but we can make it a much better one."

Seven carloads of poles arrived this morning for use in rebuilding the line and putting in the "metallic circuit."

FREAKS AND FANCIES.

Consistency in Dress—Ribbon Trimming For Waists.

Observant persons frequently have occasion to marvel at the singular anomalies human nature continually exhibits. A woman who is apparently very particular in the matter of dress, for instance, one who has fashionable and well made garments, will appear in some incongruously arranged attire, seeming to think that because each individual part of her costume is in style the effect will be satisfactory. A woman of this sort will wear an ostrich plume boa with a shirt waist and four-in-hand tie without visible compunction. She will employ plain linen collar and cuffs as the adjuncts of a fancifully trimmed silk waist. She will wear a severe tailor made gown and an open crowned bonnet of flowers and lace at the same time. She will

COIFFURE.

even go so far as to wear ornamental shoes with high wooden heels for walking in the street. Each one of these articles of apparel may be, and often is, pretty in itself, but not adapted to all times and seasons. The question is, How is it possible to improve a taste which teaches the possessor to select pretty things, but not when to wear them?

One of the newest ways of trimming a plain bodice is to use four inch ribbon woven with a border, or with some ornamental edge put on afterward. This is employed for brooches, which start from the belt in front and are carried up to the tip of the shoulder, where they form two erect coques, and down to the belt behind. From the shoulder coques a band of the same ribbon is carried down the front and back of the sleeve puff to the elbow, where each band terminates in two loops. A sort of basque is formed by two loops of the ribbon which come from beneath the belt over each hip. The ribbon is pretty, when of a bright color, if it is edged with narrow black velvet.

A sketch is given of a coiffure in which the hair is waved and drawn lightly to the crown of the head, where it is twisted in a torsade, from the middle of which a cluster of short curls projects. The ornament consists of a bow of rose ribbon with a few sprays of valley lilies.

JUDIC CHOLLET.

VARIOUS NOTES.

Dainty Sunshades—Beautiful Muslin of Every Design.

Parasols are more elegant and luxurious than ever. Some are in moire, trimmed with deep points of old guipure; others are covered with flounces of mousseline de soie; still others are of crepon plisse, with bands of insertion. All have bows of ribbon at the top and handle. The handles themselves are of wood enameled the color of the umbrellas.

Very small crowns are seen on many of the summer hats and bonnets, and great pains are taken not to conceal them by the trimming. There is a novel fancy also for extending the brim by a plaiting of lace carried all around the edge.

The printed muslins are lovely this year. Most of them have floral patterns, but these are large or small, scattered or running, so that every taste may be pleased.

Cotton duck is really more useful than linen, although it is not so expensive, for

CAPE.

linen duck crumples almost at once and can be worn only once or twice before it begins to look wilted and stringy. Cotton duck and pique, on the contrary, keep their freshness for some time and are easier to launder.

The woman with a large waist is flattered by the present mode in spite of the general use of the belt, for the immense sleeves and the spreading skirts make the waist seem small in comparison, while the belt difficulty may be avoided by wearing a girde pointed down back and front, or, better still, a short bodice similarly pointed and finished, with a cord around the edge, with no belt at all. In the era of skin tight sleeves and celskin skirts there was no refuge for the large waisted or the angular woman, so there are some advantages about the present fashion in spite of the loud outcries against it.

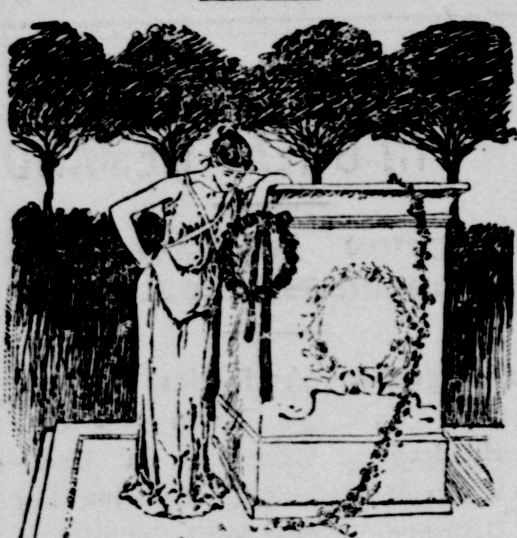

Today's illustration shows a cape of mastic cloth. It is double, each cape having rounded corners and rows of stitching for a finish, and the lower one having two small pockets with flaps. The collar is faced with mauve velvet, and the cape is fastened with a large ornamental clasp. The white straw hat is trimmed with flowers and immense bows of ribbon.

The Fatal First Hour.

Out of 41 mining accidents no fewer than nine are reported in the first hour of work—more than at any other hour—while in the sixth, seventh and eighth hours there were eight, five and two accidents respectively. The figures seem to point to a lack of proper precautions before work is begun.

An athletic caper of this sort would scarcely be considered indecorous in one, even of mature age and sedate habits, impelled thereto by excess of joy on recovering his digestion through the instrumentality of Hostetter's Stomach Bitters, foremost among remedies for dyspepsia, biliousness and constipation, a trio of evils usually found in conjunction with each other. As the stomach recovers its tone, and the gastric juices are secreted in healthful plenitude through the agency of this superb restorative, nerve tranquility, appetite and sleep return, the body gains in substance and the muscles in vigor. For the prevention and cure of malarious, rheumatic and kidney trouble the Bitters is a most direct and thoroughgoing medicinal agent. Its effects are speedily felt and comprehensive.

Mrs. HARRY TAPPAN, of Reynolds, Neb., writes: "For about two years I was a constant sufferer from diseases peculiar to my sex. I had to be carried from my bed, had horrible dreams, sinking sensations, was very nervous and had little or no appetite. In short, my whole body was racked with pain. I had frequent attacks of hysteria, and was completely discouraged for I found no medicine did me any good. At last I determined to try Dr. Pierce's Favorite Prescription. I had taken but two bottles before I felt so much better! I took eleven bottles. Today, I am well. I have never felt the least trace of my old complaint in the last six years. We use the 'Golden Medical Discovery' whenever we need a blood-purifier. With its use, eruptions of all kinds vanish and the skin is rendered clear and soft, almost as an infant's." Sold everywhere.

The above little clipping from the great New York Herald may be taken as an indication that the press and the public are beginning to see the question in another light. We could write volumes on the subject, but perhaps you would not wade through them. This, however we will assert here: The drug store is the proper place to get anything in the drug line, and we can prove that our prices are as low and our goods as good as anywhere else in town. ALL FAMILIES WANT THE GAZETTE PRIZE

BABY CONTEST IS GETTING
VERY SPIRITED.

Five Hundred Dollars Worth of Building and Loan Association Stock Is a Nice Nest Egg For a Three Year Old and the Vote Between Several Contestants is Very Close.

The time is not far distant now, when some Janesville baby will get The Gazette's \$500 prize. The ballot closes June 1, and then the prize will be awarded. Five hundred dollars is a nice sum for a baby to begin life with. Put it out at interest and when the babe becomes the man or woman, enough cash for a start in life is available.

Do not think that you can sit down and wait for that \$500 to come to your home. The ballots are piling up rapidly, for, naturally enough, \$500 is enough to encourage every father and mother in Janesville to strive for that prize for their "ownest own." Competition is getting strong as the time begins to narrow down and in this case the old adage, "everything comes to he who waits" is far from true. It should be "everything comes to he who hustles." The Gazette has been asked many times to publish the vote as it stands, but this would not be fair. It would tell Brown that Jones was leading him, and The Gazette wishes to treat all babies alike. However, the count is close between several contestants up to date, and, like everything else, the "early bird," etc., applies.

The Gazette's offer is this: The baby receiving the highest number of votes will be presented with \$500 worth of stock in the Rock County Building, Loan & Savings Association.

It will buy an education. It will buy a building lot. It will buy a piano and the lessons necessary to play upon it.

It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened on May 1st and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Cut the ballot out (trimming on the dotted lines). Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

TRY THE POWER OF LOCOMOTIVES

Chicago & North Western Officials Make a Uniform Test of Motive Power.

A test of motive power of the locomotives on the Chicago & North Western road is being systematically made with the expectation of getting a proper uniform rating of the hauling power of all engines. Hitherto the size of freight trains made up at freight terminals, has been reckoned as being composed of so many loaded or empty cars, regardless of the total weight carried in each car. The object is to ascertain in tons the weight which each class of engines can pull over all grades, regardless whether it takes fifteen cars to have that tonnage or twenty. Adopting a unit of weight which is as handy and convenient as the ton, puts the carrying capacity of all engines of the same class on an equal footing. In this way it is expected that locomotives will not be either overloaded or underloaded, which is apt to be the case at present. The tests are conducted by the gentlemen having in charge the engineering departments, they being represented by such officers as William McIntosh, Hugh Montgomery, W. H. Graves and H. W. Battin. Last week's tests involved experiments on all the severest grades of the Winona & St. Peter division.
